

**Counterfeit Components  
Policy**

To prevent the purchase of counterfeit, suspect or unapproved products, Dutek's policy is to purchase components directly from:

- Original Component Manufacturers (OCMs)
- Franchised Distributors
- Authorized Remanufacturers

Certain hard-to-find or obsolete products cannot always be obtained from these primary sources. In such instances, it may be necessary to source components through brokers or independent distributors. In such cases verification from the supplier that they have the ability to assure the components are genuine and not counterfeit will be confirmed. In cases where the sole source of components cannot provide this guarantee, the client shall be notified of the circumstances and the purchase of the components shall only be made with their approval.
